Telangana Resource Centre (TRC) has been in the forefront in highlighting issues of Telangana People before the state formation and continues to do after too. Higher education is one of the most important issues for the new government in building a democratic, robust and peoples Telangana. In this direction the TRC has organized two Charchas on Higher Education (155 and 156) besides some brainstorming sessions. This Charcha-157 is third in the series. There will be a workshop on the same subject on 18th January, 2015. The whole objective of this exercise is to produce a directional paper for the new government for its consideration and implementation.
